Welcome

INTRO

Hello.

Thank you for taking the time to have a look at my portfolio - showcasing a carefully selected collection of events that I have had the privilege of collaborating on.

I'm Darcy. A lighting and production designer based in Sydney. I specialise in crafting immersive experiences through the transformative power of light. By delving into the intricate interplay between light, darkness, space and emotion, I have the ability to captivate audiences with breathtaking designs.

Working closely with clients and production teams, I bring visions to light with meticulous attention to detail. My skill set revolves around seamlessly integrating visually striking and harmonious lighting designs, thereby enhancing the overall artistic concept of an event.

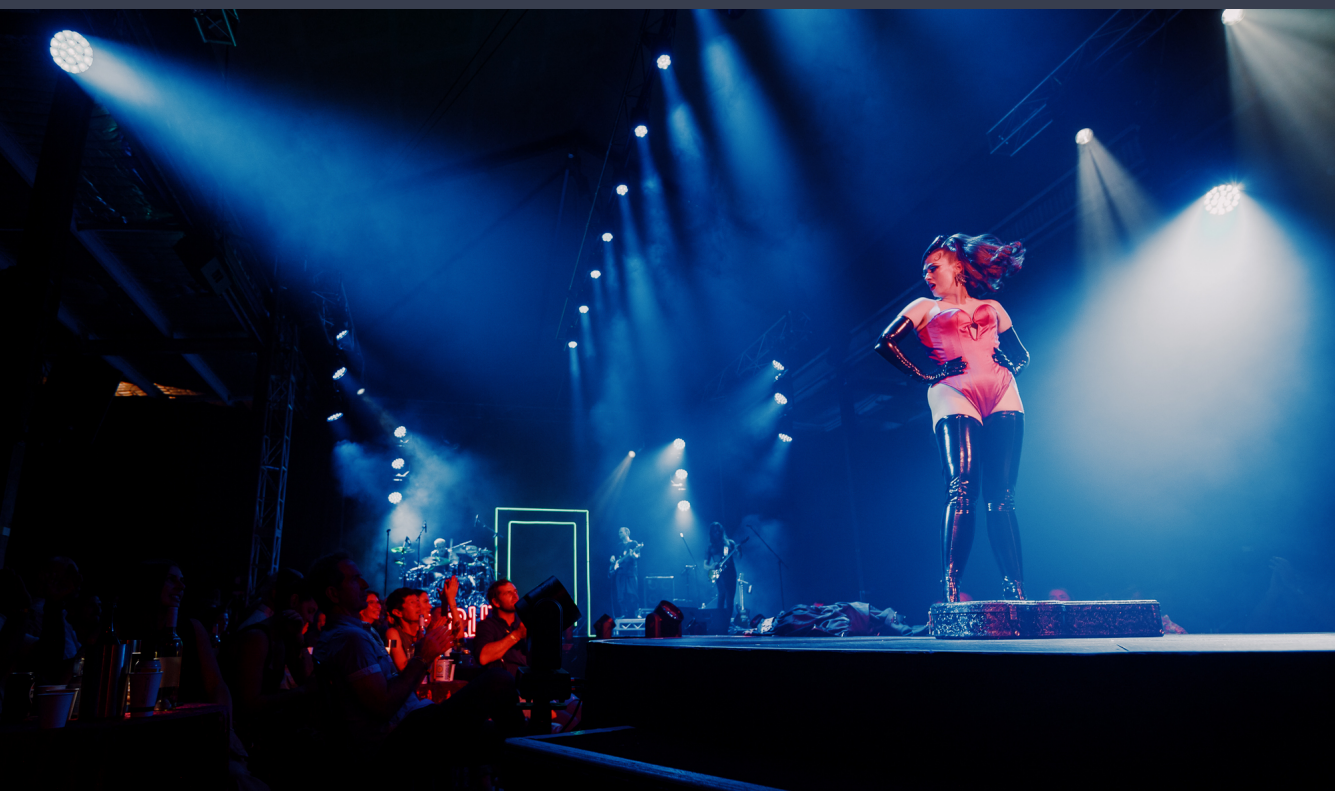

Driven by a passion for innovation, I am constantly exploring new approaches and staying at the forefront of cutting-edge technologies allowing me to push the boundaries of what can be achieved with the art of lighting.

I look forward to collaborating with you on your next project.

Darcy.
